Please accept this letter as my authorization to deal with the New Jersey Insurance Underwriting Association (NJUIA) on a direct basis without the service of a licensed insurance producer.

I understand the NJUIA policy I am applying for is a basic policy of essential property insurance for a commercial building, and does not include coverage normally provided in a commercial package policy or business owner's policy voluntarily issued by a standard insurance company. I further understand that the NJUIA policy does not include liability insurance, flood insurance, theft insurance or replacement cost coverage. To acquire this coverage I understand I should seek coverage from a standard insurance company, either directly or through an insurance agent or broker.

I have been advised by NJUIA that the service of a licensed insurance producer might better serve my insurance requirements and interest.

This authorization shall remain in effect for each renewal period or until I revoke this authorization or obtain a producer.
